

▶ SANTA FE CLASSIC

Powerful, efficient and boasting a streamlined look, the **Classic** is one of our most favored basement dehumidifiers. Popular and proven, it receives some of our highest customer ratings.

MODEL 4044710

PERFORMANCE

Water Removal	@ 80°F and 60%RH	@ 65°F and 60%RH
	116 Pints / 14.5 Gallons	76 Pints / 9.5 Gallons
Efficiency	7.27 Pints/kWh	5.9 Pints/kWh
Energy Factor	3.43 L/kWh	2.8 L/kWh
Blower	275 CFM @ 0.0" WG	
Operating Temperature	56°F Min., 95°F Max.	
Basement Sizing	2,500-2,900 Sq. Ft. / 25,000-29,000 Cu. Ft.	

ELECTRICAL

Power	540 watts @ 65°F and 60% RH
Supply Voltage	115 volt – 1 phase – 60 Hz
Current Draw	4.5 amps @ 65°F and 60% RH
Power Cord	9', 115 VAC, Ground

SPECIFICATIONS

Drain Connection	3/4"
Drain Hose	6' Direct Gravity Drain Hose (9/16" ID x 3/4" OD)
Refrigerant	R454B, 20 oz.
Unit Dimensions	20"W x 36"H x 17"D
Unit Weight	110 lbs.

SHIPPING

Shipping Dimensions	24"W x 44"H x 21"D
Shipping Weight	117 lbs.
Pallet Quantity	1 per pallet
UPC Number	810017961726
Shipping Options	UPS and LTL

Side

Front

Specifications are subject to change without notice.
Water removal is based on pints / gallons per day.
Basement sizing based on 10 foot ceiling height.

FEATURES

- + Vertical configuration great for basement applications
- + High capacity blower for optimal air movement
- + Optional duct kits and condensate pumps provide multiple installation options for greater flexibility
- + Engineered for low temperature operation and the air flow issues that basements present
- + Auto restart allows the dehumidifier to automatically restart after a power outage

INDOOR AIR QUALITY SOLUTIONS

SANTA-FE™
6-YEAR TOTAL PEACE OF MIND WARRANTY
5-YEAR FULL REPLACEMENT + 1-YEAR PARTS

ENGINEERED & ASSEMBLED
MADISON, WI

BUILT TO LAST. POWERED TO PROTECT.

Santa Fe Dehumidifiers Provide the Foundation for a Healthy, Safe, and Comfortable Home

Excess moisture is the most common problem in basements and crawlspaces. Studies show that as much as 50 percent of the air in a home comes from the basement or crawlspace. In essence, whatever air is below the house is also inside the house, which often carries odors, contributes to poor indoor air quality (IAQ), and causes uncomfortably high humidity levels.

Musty Odors

Musty odors coming from the basement or crawlspace are not only highly unpleasant but can be both dangerous and expensive to correct if left untreated. No matter how clean your home is or its age, musty odors can plague the entire home, even without the appearance of noticeable dampness.

Property Protection

If you store anything of value in your crawl space or basement, or have a finished basement, keeping the moisture levels low is important. Relative humidity levels rising above 70 percent stimulate the growth of mold, mildew, and other biological growth, which can cause damage to building materials and your personal property.

Comfort & Health

With up to 50 percent of the air in your home, coming from the basement or crawl space, your indoor air quality can suffer, especially as it relates to the health and comfort of you and your family.

Solution

Santa Fe high-capacity, stand-alone dehumidifiers are the most energy-efficient on the market and are designed to operate in the cooler temperatures of a basement or crawlspace effectively. The units help maintain the structural integrity of your home, help inhibit mold growth, and improve the indoor air quality of your home by removing odor-causing moisture.
